

BSc. (HONS) IN BUSINESS MANAGEMENT

Are you ready to jump into the exhilarating world of business?

Built for students who want more than theory, the BSc. (HONS) in Business Management offers a practical, internationally recognised pathway into modern business and management careers.

The journey begins with two immersive years on campus in Barcelona, where students develop strong foundations in management, marketing, finance, entrepreneurship, economics, digital business, and emerging technologies. Learning is project-based and applied, combining academic rigour with real-company cases, industry visits, and hands-on business challenges.

In the final year, students complete a UK Honours Degree online, awarded by Anglia Ruskin University or The University of Law Business School, while participating in ESEI's Career Acceleration programme. This year integrates advanced strategic study with internship experience, professional mentoring, and structured career development.

Graduates leave with a UK-accredited BSc (Hons), practical experience, and the confidence to enter the workforce, launch a business, or progress into postgraduate study in an international environment.

ESEI is an accredited center by the Government of Catalonia's Department of Education with center code number 08075402.

"My path to ESEI wasn't easy, but it was worth it. The flexibility allowed me to combine real work experience with my studies and even turn a class project into a startup on the App Store. The support from the staff and professors truly made the difference. ESEI gave me the confidence to turn uncertainty into opportunity."
